WOMEN BEAUTY PROS ROCK!

Hot Heads

TIGI PROWLs THE BEAUTY CATWALK

Rsession Tools Nalu Waver: It takes two, baby. This iron boasts $\frac{3}{4}$ " dual ceramic barrels that heat up to 430° F and LCD digital programming. Plus, it comes with a nifty heat-resistant styling glove and storage pouch.

Rusk Professional Thermal Texturizing Wand: C'mon, it's time to get funky! This iron has dual $\frac{1}{2}$ " barrels to create offbeat styles; allows for 30 different heat settings; and heats up to 428° F.

CHI Spring Ceramic Curling Iron: Talk about spring loaded. This 1" barrel iron boasts easy-to-use temperature controls, flash-quick heating and a swivel cord.

X5 Superlite Nano Tourmaline Ceramic Ionic Curling Iron: Go, Speed Curler, go! Negative ions and penetrating far-infrared energy make for quick curling time, while patented dual ceramic heaters maintain constant heat and automatically shut off after one hour of non-use.

TIGI Hardcore Professional Fat Curl Stick: Fat is beautiful! The iron boasts 25 heat settings up to 428° F; features a tapered, ceramic-coated barrel that can create ringlets or large, soft curls; and is clip-free, which eliminates ridges in the hair.

Hot Tools Professional Curling Iron: Hot, hot, hot! This iron's 1" barrel quickly heats up to 430° F and stays hot with patented Pulse Technology. Plus, the Soft-Grip handle provides ergonomic comfort, and tourmaline technology reduces frizz while preserving moisture.

ProSilk Tourmaline Ceramic Digital Curling Iron: The iron has an LCD temperature control display; a 9°, full-circle swivel cord; and a 1" barrel that heats up to 428° F.
